For an effective quotation

Please include your company, destination, estimated quantity, size range, stem requirements, packaging and target delivery date. Specify requested sample quantities, laboratory testing and export documentation.

Quality and batch review

Connect the proposed batch to its product specification and relevant supporting documents before confirming an order. Assess testing against the destination market and dried product. This brief is not a certificate or a batch test report.

Storage and preparation

Keep sealed in a cool, dry place, away from moisture and strong odors. Follow the product label for shelf life. Rinse and soak before cooking. Cook rehydrated morels for at least 20 minutes; never eat them raw or merely rehydrated.
